

Ege Özçelik

ELECTRICAL & ELECTRONICS ENGINEERING STUDENT

ABOUT

I'm a Electrical and Electronics Engineering(70% in English) student at Ege University on 3rd year . At a young age, I had the chance to develop myself in many fields. I have a passion for software and electronics. So that i follow technology closely. Gaining experience in various fields is my greatest life motto. When I have in difficulties, I can effectively use local/foreign resources on web.

PROJECTS

Ege University, Microelectronic Circuits Term Project

ADJUSTABLE DC POWER SUPPLY

Adjustable DC voltage source designed within the scope of "Microelectronic Circuits" course. In the designed system, the 220V/50Hz AC mains signal is transferred to the output as DC in an adjustable way for both current and voltage. Within the scope of the project, transformer circuit, rectification circuit, filter circuit, regulation circuit applications were realized.

- October 2021 - January 2022

GOOGLE PLAY/RECONCHILLE STUDIOS

MINGO'S ADVENTURE WORLD, SPACESHIP WARS

-These are my 2 games that i developed and published on google play
